WMHS-0101-CHV Installation Guidelines

Recommended Water Supply Connection Height: 42"-48"

Threads of 1/2" MIP Supply Line should be exposed through wall.

1. With about 1" of water line threads exposed, connect angle valve to pipe using Teflon tape.
2. **NOTE:** Flush supply lines before installing valve.
3. Attach nipple to valve using Teflon tape.
4. Slide hand spray bracket ring onto nipple.
5. Attach coupling to nipple using Teflon tape.
6. Attach hose to coupling using Teflon tape.
